

Job Title : Data Center Manager

We are seeking an experienced and skilled Datacenter Manager to join our IT team at Vattanac Bank. The successful candidate will be responsible for managing the bank's data center operations, including overseeing the physical and virtual environments, ensuring that they are secure, reliable, and efficient. The Datacenter Manager will work closely with other IT teams and senior management to ensure that the data center supports the bank's business objectives.

RESPONSIBILITIES:

- ◆ Oversee the day-to-day operations of the bank's data center, including managing staff, ensuring uptime and performance, and maintaining service level agreements.
- ◆ Ensure the security and integrity of the bank's data center, including physical security, access controls, and disaster recovery planning.
- ◆ Manage vendor relationships for hardware and software maintenance, support, and procurement.
- ◆ Monitor and optimize the data center's performance, including server utilization, storage capacity, and network bandwidth.
- ◆ Manage the data center's power and cooling infrastructure to ensure that it is efficient and cost-effective.
- ◆ Develop and implement procedures for routine maintenance and upgrades of hardware and software.
- ◆ Maintain documentation for the data center's configuration, processes, and procedures.
- ◆ Collaborate with other IT teams and senior management to ensure that the data center supports the bank's overall IT strategy.

QUALIFICATIONS REQUIREMENTS:

- ◆ Bachelor's degree in Computer Science, Information Technology, or a related field.
- ◆ 5+ years of experience managing data center operations in a large-scale environment.
- ◆ Strong knowledge of data center technologies, including servers, storage, networking, and virtualization.
- ◆ Experience with disaster recovery planning and execution.
- ◆ Excellent communication and collaboration skills, with the ability to work effectively with other IT teams and senior management.
- ◆ Experience managing staff, including hiring, training, and performance management.
- ◆ Familiarity with banking applications and software, such as core banking systems, would be an advantage.
- ◆ Willingness to work outside of normal business hours to perform system maintenance and upgrades as required.

If you have a passion for managing data center operations, a dedication to providing excellent customer service, and a strong desire to contribute to the success of a leading bank in Cambodia, we encourage you to apply for this exciting opportunity.
