

**Job Title : Manager, Network**

**OVERALL PURPOSE:**

- ◆ As the Network Manager at Vattanac Bank, you will be responsible for designing, implementing, and managing the bank's enterprise network infrastructure. You will play a crucial role in ensuring the stability, security, and efficiency of our network operations, supporting the bank's mission to deliver seamless and reliable financial services.

**RESPONSIBILITIES:**

**Network Infrastructure Management:**

- ◆ Design, implement, and maintain the bank's enterprise network infrastructure, ensuring high availability and optimal performance.
- ◆ Oversee the installation, configuration, and maintenance of routers, switches, firewalls, and other network equipment.

**Security and Compliance:**

- ◆ Implement and enforce security measures to protect the bank's network from cyber threats and vulnerabilities.
- ◆ Ensure compliance with industry standards, regulatory requirements, and internal security policies

**Monitoring and Troubleshooting:**

- ◆ Proactively monitor network performance, identifying and resolving issues to minimize downtime.
- ◆ Conduct regular assessments to identify areas for improvement and implement solutions to enhance network efficiency.

**Capacity Planning:**

- ◆ Conduct capacity planning to anticipate future network needs and ensure scalability.
- ◆ Collaborate with other IT teams to align network infrastructure with overall technology goals.

**Vendor Management:**

- ◆ Manage relationships with network vendors, ensuring timely procurement of hardware and software, and maintaining effective communication for issue resolution.

**Team Leadership:**

- ◆ Lead and mentor a team of network professionals, fostering a collaborative and high-performance work environment.
- ◆ Conduct regular training sessions to keep the team updated on emerging technologies and best practices.

**Key Performance Indicators (KPIs)** The Network Security Team's performance will be measured against the following KPIs:

- ◆ Network uptime and availability.
- ◆ Network performance and optimization.
- ◆ Network security and compliance.
- ◆ Timeliness and accuracy of network-related support and guidance.

**REQUIREMENTS:**

- ◆ Bachelor's degree in computer science, Information Technology, or a related field.
- ◆ Minimum of 8 years of experience in network administration and management.
- ◆ Industry certifications such as CCNP, CCIE, or equivalent is highly desirable.
- ◆ Proven experience with Cisco networking technologies and security protocols.
- ◆ Strong understanding of banking industry regulations and compliance requirements.
- ◆ Excellent leadership and communication skills.
- ◆ Willingness to work outside of normal business hours to perform system maintenance and upgrades as required.
